

**Update 21.08.12**

## Update

Prime Source Forum is now perceived to be the Annual Forum for the Global Fashion Industry. The revamped layout of this issue will help deliver more information to our reader's needs.

The eighth edition of this annual event will be in two day format focusing in four key topics with a keynote speaker to kick off the topic followed by a panel discussion, not only that, but workshops related to sustainability, China retailing and more will be organised separately to include the profiles of PSF's sister events, [MM&T](#) and [Fashion Access](#) and on 25 March 2012.
