

Step by Step instruction on editing banner text with free online Photo editor

Open your browser (suggested to use Internet Explorer) and navigate to <http://pixlr.com/editor/>

Click on “Open image from computer”.
Go to folder which stored the “**Marintec China banner**”

Your banner file is opened in the browser

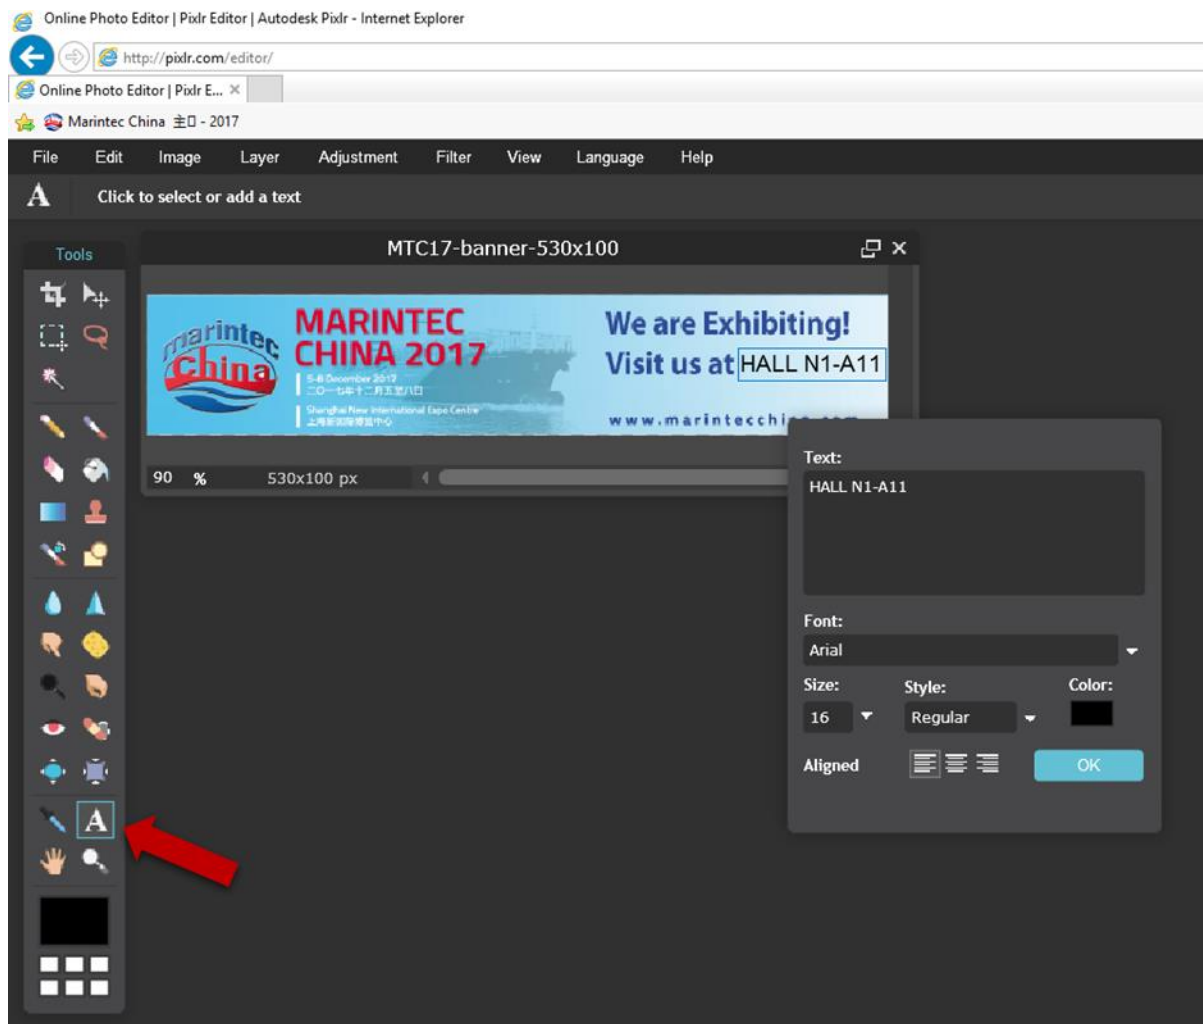

Adding new text

In the left panel, click on the Text Tool (“A”). Next, click on the banner to start typing your stand number.

Please make sure you use:

- Font: Arial
- Size: 16
- Style: Regular

Click “OK”, then “OK” and your text (stand number) should now be black.

Saving the modified banner

Click on “File” in the top left corner and select “Save”.

In the “Save image” panel you may add a new name to the file.
Select JPEG as the format.
