

The 17th Asian Oil, Gas & Petrochemical Engineering Exhibition

18 - 20 JUNE 2019

Kuala Lumpur Convention Centre  
Malaysia

THE REGION'S  
**NO.1**  
OIL & GAS SHOW

**E-SHOW DAILY**

**DAY 1** 18 JUNE 2019

## WHAT'S ON TOMORROW!

19 JUNE 2019

- ▶ **International Sourcing Programme (INSP) by MATRADE**  
10.30am - 5.30pm  
Hospitality Lounge Hall 5
- ▶ **OGA Industry Talks by MATRADE, MIDA, Universiti Teknologi Petronas, The Institution of Engineers Malaysia**  
11.00am - 4.00pm  
Room 306 - Hall 9A (Level 3)
- ▶ **Technical Talks & Presentation by Exhibitors**  
11.00am - 4.00pm  
Kiosk Hall 2
- ▶ **Business Matching - B2B (Exhibitors/VIP and Trade Visitors)**  
11.00am - 5.00pm  
Rooms 304 & 305 - Hall 9A (Level 3)
- ▶ **Subsea UK Conference**  
11.00am - 2.30pm  
Kiosk Hall 4
- ▶ **Subsea UK - Networking Reception & Whisky Tasting**  
4.00pm - 6.00pm  
Hospitality Lounge Hall 4 (Mezzanine Floor)

## Technology for Life with Dräger

Since 1889, Dräger has stood for "Technology for Life". Dräger manufactures safety and medical technology products to protect, support, and save people's lives around the world in the Oil, Gas & Petrochemical Industries. Dräger joins OGA 2019 to showcase their state-of-the-art safety products, services and solutions. Whether the customer's safety requirements are for a New Build, Standard Operations, Plant Maintenance and/or Refurbishment/Decommissioning, Dräger have the right solutions. Their safety solutions can be categorised into 3 main portfolios: Detection, Protection and Services by Dräger. New focus products for the Oil, Gas & Petrochemical Industries will be available at their booth that includes a new Ultrasonic Leak Gas Detector (the Dräger Polytron 8900 UGLD), as well as a PID Gas Measurement Device (the Dräger X-pid® 9000/9500) ideal for users who frequently test for hazardous toxic substances.

Visit the Dräger at Hall 8, Booth 8101 to learn more how their Smart Solutions can support your workplace in this digital age.

## EIC, Host of UK Pavilion at OGA 2019

The EIC is hosting the UK pavilion at OGA 2019. Our objective is to provide a platform in which UK supply chain companies can engage with local and international companies. We intend to enable UK exhibitors to showcase their products and services, of which are some of the UK's finest. The UK pavilion consists of 11 companies this year with products and services vital to the energy industry. Our membership is made up of suppliers, operators and contractors working across the Oil & Gas, petrochemical, pipeline, power, nuclear and renewable industries. As a global not-for-profit organisation with offices in key locations (London, Teesside, Aberdeen,

Houston, Rio, Kuala Lumpur and Dubai), we help members to identify and maximise business opportunities worldwide by providing a range of products and services.

"It is a pleasure to once again be hosting the UK pavilion at Oil & Gas Asia. Malaysia's premier Oil & Gas conference and exhibition seems to get busier and busier with each edition. Given the updates and developments from the national oil company PETRONAS, I am expecting this year's event to be especially productive." - Azman Nasir, Head of EIC Asia Pacific.

## BMEA - Your Partner for Marine and Offshore Equipment Business

Busan is a business hub for leading marine & offshore industries located at southeast region in KOREA. Busan Marine Equipment Association (BMEA), the single biggest driver of the equipment industries is taking a key role in the marine & offshore industrial development of KOREA.

For continuous progress and development of global marine and offshore industries, BMEA will perform its mission to be a linkage to the business between internal and external industries.

- Marine Shipbuilding Equipment Cooperative Complex Project
  - 1st Cooperative Complex (Noksan Industrial Complex)
  - 2nd Cooperative Complex (Mieum Industrial Complex)
  - Employed Workers Training Project
  - Raw/Subsidiary Materials Joint Purchase
  - Transportation Business
- Joint Distribution Business
  - Storage & Management Business
  - Delivered Distribution Supporting Business
  - Transportation Business
- Overseas Marketing Supporting Project
  - Dispatch of Overseas Shipbuilding Equipment Trade Mission
  - Organising a Business Meeting with Overseas Buyers
  - Participating in a Joint Hall Overseas Exhibition

## Changing The Game Of Global Offshore Services With Thunder Oilfield Services

With recently opened new operation locations in Malaysia and Singapore, Thunder Oilfield Services (TOS) participation in Oil & Gas Asia 2019 is joined by a vision to be the leading solutions provider of offshore crane products and services throughout Asia Pacific. Although known for both offshore and onshore services, this year around, TOS has stepped up the game by highlighting their Total Offshore Crane Management Solutions, brand new Offshore Cranes and their well-known API-U Qualified Training Courses. TOS is exclusively the only offshore company in Asia to hold API Q1, Q2, and APII-U Accreditation.

"Having exhibited previously at the show and visited in 2017, we felt that OGA 2019 would be a fantastic platform to reach towards our vision of being the leading solutions provider of offshore crane products and services, with service centers available throughout the Asia Pacific." - Steven Pratt, V.P Business Development.

## Fail-Safe Technology with STATS Group

STATS Group are market leaders in the supply of pressurised pipeline isolation, hot tapping and plugging services to the global oil, gas and petrochemical industries. STATS Group is targeting

further growth in the Asia Pacific region following many years of providing service to major operators in Malaysia. STATS opened an operational base in Kuala Lumpur, Malaysia, and will combine its operational resources in the Middle East, to bolster contract opportunities in the Asia Pacific region. STATS will be showcasing their range of market leading pressurised pipeline isolation, hot tapping and plugging services. The patented BISEP® is an industry leading technology solution for temporary line plugging. DNV GL Type Approved, the BISEP provides a fail-safe double block and bleed isolation. The Tecno Plug® provides fail-safe double block and bleed isolation of pressurised pipelines while the system remains live and at operating pressure. Dual seals provide a zero-energy zone to enable maintenance work on pressurised systems to be carried out safely and efficiently. Designed and built to incorporate industry leading features allowing taps to be performed safely on a wide range of pipeline materials and mediums, including use with sour (H2S) products.

"STATS Group has been exhibiting at the OGA since 2011 as it is the region's premier Oil & Gas event. The show gives us excellent exposure and access to some of the leading exploration companies and contractors in the region, and other key players attending the exhibition."  
- Gareth Campbell, Regional Manager, Asia Pacific.

## Offshore Avenue - Widening Global Network

Offshore Avenue Sdn Bhd (OASB) is a local company with office & workshop facilities located in Kemaman, Terengganu. It is founded in 2006 and our major business are pump and valve. The first eight financial years were concentrated on generating profit via the commercial trading of hydrocarbon valves. Catering mainly for the Oil & Gas market segment during this period, it has built firm relationships with end-users and consultants alike. Inspired for a business growth, OASB has successfully been awarded the exclusive agent for Layne Bowler water pumps in 2014. From there on, OASB has expanded its business spectrum to cover a new market segment; general water supply. OGA 2019 is a good platform for OASB to introduce products to existing and new potential customer as well as widening our business opportunity globally. During the event, we'll be highlighting our mechanical valves, centrifugal pump, Decanter Centrifuge, and GRE Pipe that will be delivered with competitive price, impeccable quality products and short delivery time.

## Pushing Boundaries with Elliott Turbomachinery

OGA is a great platform for us to meet our valuable existing and potential customers from Malaysia and other countries. It is the greatest platform to meet Oil & Gas customer every two years. Elliott Group is a global leader in the design, manufacture, and service of technically advanced centrifugal compressors, steam turbines, power recover expanders and axial compressors used in the petrochemical, refining, Oil & Gas and process industries, as well as in power applications. The entire range of Elliott Global Service includes OEM spare parts, equipment repairs and field service. Elliott's Global Service organisation covers every aspect of customer support including shop repairs, parts replacement, field service, design engineering, fabrication, project management, re-engineering, and rerates. Ebara Cryodynamics, a wholly-owned subsidiary of Elliott, is the premier manufacturer of submerged electric pumps & expanders in liquefied gas applications.

## Citic Pacific Special Steel - Expert In Steel Production

CITIC Pacific Special Steel is the largest dedicated manufacturer of special steel in China. CITIC Pacific Special Steel produce high grade bearing steel, plates, seamless steel tubes, wires, forging steel and casting billets for customers primarily in the auto components, energy, machinery manufacturing, oil and petrochemicals, transportation, shipbuilding and other industrial sectors across the world. Relevant to the Oil & Gas industry, CITIC Pacific Special Steel is a top-quality specialist which has possessed many sets of ASSEL pipe rolling mill units, of which 460 mill unit is the largest- calibre ASSEL pipe rolling mill unit in the world. CITIC Pacific Special Steel covers the large steel grades and full product categories by its world-level process technology and equipment. Owing to its high purity and uniform compositions and properties, these steel has been certified by many international standard and won unanimous praises from oilfield users.

"We would like to meet up with the targeted customers and also the people who are interested in our products and services during the 3 days exhibition. With the appearance in OGA19, we hope it will bring positive impact by adding mutual value to our business within the Asia market and petroleum industry." - Chief Representative of Singapore Office.

## Leading Safety Equipment with Serimatik

The products and services that Serimatik will highlight at OGA 2019 are premium Offshore Safety Equipment for Oil & Gas industry. Products are Lifeboat and Personnel Transfer Basket (PTB). Their services will include supplying, servicing, maintaining, repairing, refurbish, upgrading, and trade-ins. Consultation for Life Saving Equipment (LSE) and lifting. Their objectives of joining OGA 2019 are to increase sales, increase customers and promote the company. The special feature of Serimatik's PTB are that it is one of its kind. The country of origin and material are fully imported from Denmark, and SSB assembles the unit locally. While having its service center here in Malaysia, the only PTB that has service center in Malaysia, fully managed by Malaysians.

## Elektro Serve - First Malaysian made High Voltage Electric Motor

Our objective by joining OGA is quite clear. Elektro Serve will be presenting with our French Partner Jeumont Electric, the first Malaysian made High Voltage Electric Motor for South East Asia. We will be highlighting the technology of Jeumont Electric as manufacturer for the highest standards industries which are Nuclear and Military and present them for the Oil & Gas industry. At the same time, Elektro Serve will present its brand new high tech facilities to cater the maintenance of all kinds of rotating equipment for all industries.

With a strength of more than 120 years experience purely in electrical rotating machines, Jeumont has now one of the highest technology in their scope. 100% tailor-made to fit perfectly site conditions, the motors or generators they produce have a longer span life and also the best efficiency in the market. Special design for the Oil & Gas industry will follow the stringent nuclear specification.
